TECHNICAL SKILLS

- **iOS Development:** Swift, SwiftUI, State Management, Navigation
- **Swift Concurrency:** async/await, Actors, Asynchronous Data Handling
- **Architecture:** MVVM, Repository Pattern, Dependency Injection, Protocols
- **Backend & Networking:** Firebase, REST APIs, HTTP, JSON
- **Data Persistence:** Codable, Local JSON Storage, Actor-Isolated Persistence
- **Apple Frameworks:** AVKit, PhotosUI
- **Development Tools:** Xcode, iOS Simulator, Git, GitHub

WORK EXPERIENCE

Junior iOS Developer & Product Associate
Michal Cech s.r.o. | Prague, Czech Republic
Sep 2024 – Dec 2025

- Built and refined SwiftUI and UIKit screens, including navigation, search, filtering, and API-connected views.
- Tested and debugged iOS prototypes for health, wellness, and hospitality projects, identifying UI and usability issues.
- Used feedback from testing to suggest improvements to user flows and feature behavior.

PROJECTS

Espres — SwiftUI Social App
SwiftUI · Firebase · Firestore · AVKit · PhotosUI

- Built authentication, social feeds, video playback, media upload, profiles, comments, saved content, and messaging.
- Integrated Firebase Authentication, Firestore, and Storage.

Noyoo — SwiftUI Messaging App
SwiftUI · Firebase · Firestore · Swift Concurrency

- Built a messaging app with Firebase Authentication, Firestore-backed conversations, chat search, and Saved Messages.
- Used repository-based architecture, dependency injection, and Swift Concurrency to separate data operations from the UI.
