I am an iOS Developer building apps with excellent proficiency in Swift, SwiftUI, and UIKit. In my career I have had experience with API integration, JSON handling, basic Core Data, and responsive UI design. I focus on creating user friendly apps while improving my Swift skills through personal projects. I am always eager to learn, contribute, and take feedback. Most importantly I am looking for an opportunity to grow and enhance my professional knowledge.

## WORK EXPERIENCE

### Michal Cech s.r.o

Junior iOS Developer & Product Associate

**Development of the brand S\*upper Health & Wellness Projects**

September 2024 –

December 2025

Prague, Czech Republic

#### Achieved Tasks:

- Worked with a small team on UI development and core app functionality for a health-focused mobile app
- Assisted in developing, testing, and debugging app features to improve stability and user experience
- Built dynamic table views in Swift to display product listings, integrating REST APIs to fetch live data using URLSession and JSON
- Implemented Core Data to store user settings and application state locally
- Designed responsive interfaces for both iPhone and iPad using UIKit and SwiftUI
- Experimented with SwiftUI to create smooth navigation flows, including search and filtering features
- Collaborated with the team to improve usability and ensure a user-friendly experience

#### **PR & Hospitality Projects**

#### Achieved Tasks:

- Collaborated with a small team to develop search features and app functionality for luxury hotel brands, including Four Seasons, Mandarin Oriental, and Laa an der Thaya
- Focused on improving hotel browsing, live room availability, and search filters for a better user experience
- Built responsive UI layouts using SwiftUI and UIKit for iPhone and iPad devices
- Integrated external APIs using URLSession and JSON to provide live hotel data and improve app responsiveness
- Created user-friendly booking interfaces and optimized app performance

**Contact:** +420 737 418 801 – Michal Cech

### Dukley

Lifeguard

April 2024 – November 2024

Budva, Montenegro

#### Achievements tasks:

- Maintained high safety standards and daily prevention routine
- Interacted with guests professionally and empathetically, ensuring a safe and welcoming environment for families and visitors
- Responded quickly and effectively in emergencies, including performing CPR to successfully resuscitate a 5-year-old child, ensuring their full recovery
